SUMMARY

Front-End Developer with 3.5+ years of experience in ReactJS, Redux, and JavaScript. Skilled in building scalable, reusable components and optimizing applications for performance. Proficient in delivering user-centric solutions and collaborating with cross-functional teams to ensure technical feasibility and resolution of issues.

SKILLS

Technical Skills	JavaScript (ES6+), HTML5, CSS3, Object-Oriented Programming, Git, Responsive Web Development, REST APIs, Debugging, DOM manipulation
Frameworks & libraries	SCSS/SASS, ReactJS, Redux Toolkit, Flux, Bootstrap, Tailwind CSS, Jest, Jasmine, React Native
Tools & Techniques	Webpack, Babel, Parcel, CI/CD Pipelines, Confluence, Gitlab, Jira, NPM, Azure DevOps, Agile Methodologies, Authentication, JWT, CORS, Figma
Specialties	Problem Solving, Web Performance Optimization, Test Driven Development, Collaboration, Adaptability, Cross Browser Compatibility, Accessibility

WORK EXPERIENCE

Specialist | Credera

Jul 2021 - present

- Developed user-facing features and optimized reusable components using ReactJS, Redux, and REST APIs.
- Built scalable and high-performance templates for General Motors websites, enhancing performance and usability.
- Integrated secure user authentication and role-based authorization using Auth0, OAuth, and JWT to manage access control across the application.
- Migrated Novartis' site to Drupal, leveraging ReactJS for improved user engagement and a 30% boost in traffic.
- Delivered cross-browser compatible, accessible solutions for Credera, enhancing UI/UX functionality.
- Partnered with UX designers, backend engineers, and stakeholders to clarify requirements, proactively surface challenges, and facilitate solution-oriented discussions.
- Built a mobile-first desk booking app using ReactJS, React-native, Express, MongoDB, and Node.js.
- Optimized site speed and responsiveness through caching and scaling techniques.
- Customized third-party libraries to meet project requirements, ensuring compatibility and performance.
- Mentored junior developers and participated in knowledge-sharing tech talks to drive team productivity.

PERSONAL PROJECTS

Online food ordering platform | ReactJS, REST API's, Redux toolkit | [Github](#)

Developed an online food ordering app utilizing a real-time API with a config-driven UI.

Store Locator | Geolocation API, Mapbox, HTML, CSS, Javascript | [Github](#)

Displayed nearby stores on a map using geographical coordinates and shortest route mapping.

EDUCATION

SRM Institute of Science and Technology, Chennai

2017 - 2021

Bachelor of Technology in Computer Science and Engineering

CERTIFICATION

- Front-End Web Development With React/ Coursera
- Front-End Web Developer Certification/ W3CX
- Information Security Certified Professional/ Krademy
